RÉSUMÉ

Saison 2023/2024 D2 allemande. Michael Flowers né le 14 janvier 1999 à Southfield (Michigan), 1.85m 86kgs poste 2/1 US, actuellement en D2 allemande, à la recherche d'un contrat à l'issu de cette saison.

Michael a effectué un cursus complet en fac, 3 ans d'excellente facture à Western Michigan University (17pts de moyenne en Junior), 1 an à University of South Alabama en 2021 (21 pts), avant de changer de fac pour sa saison Super Senior à Washington State University (14pts).

En 2022, au cours de sa seule et unique année chez les Cougars de Washington, ce combo s'est distingué parmi les meilleurs joueurs que le Pac-12 pouvait présenter, remportant les honneurs du 2° cinq majeur. Starter sur les 37 matchs, il a été nommé capitaine malgré son statut de nouvel arrivant, il a mené son équipe à 22 victoires et a obtenu le titre honorifique de meilleur shooteur à 3pts de l'histoire de sa fac, enregistrant plus de 100 shoots longue distance validés en une saison.
En tout, sur 5 ans de facs, il aura scoré 2234pts, joué 152 matchs avec une moyenne de 30 minutes. Scorant 333 paniers longue distance pour une réussite moyenne de 37%.

Doté d'une belle technique balle en main, ce vif combo joue sur ses changements de rythmes, de directions et ses créations de décalages.
Même si son premier pas n'est pas foudroyant, il a l'art de savoir décontenancer ses adversaires à l'aide de cross et dribbles chaloupés.
Sachant lire les défenses pour les attaquer, soit en s'insérant en percussion, soit en punissant à distance.
Fiable 2pts, 3pts et FT.
Se créant son shoot sans soucis, il dégaine plus à 3pts qu'à 2pts.
Monte bien son jump shoot en équilibre. Step back, fade way et flotteur, n'ont pas de secret pour lui.
Shoote aussi facilement à longue distance, ou en périphérie, qu'en allant percuter dessous, parfois dans des positions d'équilibriste.
Agressif il shoote en moyenne 7 FT par rencontre cette année.

Joueur malin, audacieux et opportuniste, ce ricain n'a pas peur de prendre le match à son compte.
Bon attaquant, il n'est toutefois pas le fou furieux du run & gun que ses stats pourraient laisser transparaître, car avec 5 AS de moyenne cette saison, il sait lâcher la balle et se mettre au service de ses coéquipiers.
Participant bien au rebond.
Même si ça n'est pas son fonds de commerce, il reste un défenseur correct, ce qui fait de lui un joueur complet.

Portant beaucoup la balle, il peut avoir tendance à un peu trop "tricotter".
Il peut souffrir face à un défenseur agressif, plus costaud et aussi vif que lui.
Il manque d'un premier pas ravageur, qui viendrait idéalement parfaire son style de jeu agressif.
Il doit enfin atteindre une meilleure régularité.

Les défenses en D2 allemande n'étant pas éminentes, il faudrait le voir à l'étage au-dessus, dans la meilleure D2 d'Europe, en Pro.B.
Il n'est pas sans rappeler Tray Buchanan qui fait une belle saison à La Rochelle.
Sur ce qu'il montre cette année, ce sniper distributeur encore abordable pour le marché français, ferait donc un parfait US pour une Pro.B l'an prochain, avant, pourquoi pas, de monter d'un échelon dans le futur.
(Présenté le 27/02/2024).

SUMMARY

2023/2024 Season – German ProA (Second Division)

Michael Flowers, born January 14, 1999, in Southfield, Michigan (USA), is a 1.85 m (6'1"), 86 kg (190 lbs) combo guard (PG/SG) currently playing in the German ProA, where he is seeking a new contract at the end of the season.

Flowers completed a full five-year NCAA career. He spent three outstanding seasons at Western Michigan University, averaging 17.0 points per game as a junior, before transferring to the University of South Alabama in 2021, where he posted 21.0 points per game. He then finished his collegiate career as a Super Senior at Washington State University, averaging 14.0 points per game.

During his lone season with the Washington State Cougars in 2022, Flowers established himself as one of the top guards in the Pac-12 Conference, earning Second Team All-Pac-12 honors. Despite being a newcomer, he started all 37 games, was named team captain, helped lead the Cougars to 22 victories, and became the best three-point shooter in school history, knocking down more than 100 three-pointers in a single season.

Over his five collegiate seasons, he scored 2,234 career points, appeared in 152 games, averaged approximately 30 minutes per game, and converted 333 three-pointers at an impressive 37% accuracy.

A highly skilled ball-handler, Flowers thrives on changes of pace, sharp direction changes, and his ability to create separation off the dribble. Although he does not possess an explosive first step, he consistently puts defenders off balance with crafty crossovers and deceptive dribble moves.

He reads defenses extremely well, attacking either by driving aggressively to the basket or punishing defenders from long range.

Reliable from every scoring area, he is efficient:

Around the basket
From three-point range
At the free-throw line

He creates his own shot with ease and actually attempts more three-pointers than two-point field goals. His jump shot mechanics are smooth and balanced, and he is comfortable shooting step-backs, fadeaways, and floaters.

Whether pulling up from deep, shooting off the perimeter, or finishing through traffic at the rim—often in difficult body positions—Flowers is a versatile scorer. His aggressive mentality allows him to draw frequent contact, averaging around seven free-throw attempts per game this season.

A smart, confident, and opportunistic player, Flowers is never afraid to take control of a game. While he is an excellent scorer, he is not simply a run-and-gun shooter, as his 5.0 assists per game demonstrate his willingness to involve teammates and play within the offense.

He also contributes well on the boards.

Although defense is not his primary strength, he remains a solid and dependable defender, making him a well-rounded backcourt player.

Areas for Improvement

Because he handles the ball so frequently, Flowers can occasionally over-dribble and slow the offense.

He may struggle against bigger, equally quick, and highly physical defenders.

His game would benefit from developing a more explosive first step to maximize his aggressive offensive style.

Finally, achieving greater consistency from game to game remains an important area of development.

Considering that defensive intensity in the German ProA is relatively modest, it would be interesting to evaluate him one level higher, particularly in France's Pro B, widely regarded as one of the strongest second divisions in Europe.

His profile is reminiscent of Tray Buchanan, who has enjoyed an excellent season with La Rochelle.

Based on what he has shown this year, this affordable scoring/playmaking sniper would be an outstanding American signing for a Pro B club next season, with the potential to eventually reach an even higher level in the future.

(Scouting report published on February 27, 2024.)
