RÉSUMÉ

2° division islandaise 2016/17. Urald King, 1.98m, 95kgs, ailier USA 2° année pro.
22pts 57%, 68% LF, 12.4 rbds, 3.4 pds, 2.5 ctr, 2.3 int, 33 d'éval en 30 min (!!!) à Valur Reikjavik 2° au classement (17V/5D), 6° marqueur, 3° rebondeur, 5° intercepteur, 1° contreur du championnat. Il compense sa lacune à 3pts, par une débauche d'énergie, et peut donc jouer 4 à un certain niveau. Quelle NM2 ou NM1 lui offrirait un essai ? Un joueur qui tourne à 33 d'éval. en 30 minutes, même en 2° division Islandaise... se doit d'avoir une chance dans des ligues supérieures.
(Présenté le 7 mars 2017).

SUMMARY

2nd Icelandic Division 2016/17. Urald King, 1.98m, 95kgs, USA 2nd year pro winger.
22pts 57%, 68% LF, 12.4 rbds, 3.4 aps, 2.5 ctr, 2.3 int, 33 evals in 30 min (!!) at Valur Reikjavik 2nd in the standings (17W/5L), 6th scorer, 3rd rebounder, 5th steal, 1st blocker of the championship.
He compensates for his lack at 3pts, with a riot of energy, and can therefore play 4 at a certain level. Which NM2 or NM1 would give him a try? A player who is shooting at 33 ratings. in 30 minutes, even in the Icelandic 2nd Division... must have a chance in higher leagues.
(Presented on March 7, 2017).
